

Oxygen Concentrator Update

1. **Portable oxygen concentrators are reimbursable effective for dates of service on and after January 1, 2009.** Please make the following changes, noted in **BOLD**, in your DME Procedure Code section:

E1392	Portable oxygen concentrator, rental
--------------	--------------------------------------

- The monthly rate for code E1392 is \$195.00 and includes all oxygen needs: stationary, portable and emergency gaseous supply in place for a power outage, malfunction of the concentrator, or other emergency situations.
- Code E1392 is not reimbursable in conjunction with any other oxygen system (codes E1390, E0424, E0431, E0434 or E0439).
- Do not report modifier '-RR' with code E1392.

2. Billing Instructions for home fill systems

- Providers billing E1390 Oxygen concentrator (stationary) which feature oxygen home fill systems may bill code E0431 Portable gaseous oxygen in conjunction. The combined payment includes all oxygen needs: stationary, portable and emergency gaseous supply in place for a power outage, malfunction of the concentrator, or other emergency situations.

NOTE: The monthly payment for all oxygen systems includes all necessary equipment, delivery, maintenance and repair costs, parts, supplies and services for equipment set-up, maintenance and replacement of worn essential accessories or parts.

Questions may be referred to the Division of Provider Relations and Utilization Management at 1-800-342-3005
