Section I - Purpose Statement

The purpose of this document is to assist the provider community to understand and comply with the New York State Medicaid (NYS-Medicaid) requirements and expectations for:

- Obtaining Prior Approval
- Field by Field Instructions for Prior Approval Form (eMedNY 361502)

This document is customized for Nursing Services providers and it should be used by the provider's billing staff as an instructional as well as a reference tool.

Section II - Instructions for Obtaining Prior Approval

Electronic prior approval requests and responses can be submitted on the HIPAA 278 transaction. The Companion Guide for the HIPAA 278 is available on the www.nyhipaadesk.com website. Click on eMedNY Companion Guides and Sample Files. Access to the final determinations will be available through eMedNY eXchange messages or by mail. To sign up for eXchange, visit www.emedny.org.

Prior approval requests can also be requested via ePACES. ePACES is an internet-based program available to enrolled Medicaid providers. For information about enrolling in ePACES, contact CSC at (800) 343-9000. A reference number will be returned to your ePACES screen, which can be later used to check the approval status on ePACES. Visit www.emedny.org for more information.

Paper prior approval request forms, with appropriate attachments, should be sent to Computer Sciences Corporation, PO Box 4600, Rensselaer, NY 12144-4600. A supply of the new Prior Approval forms is available by contacting CSC at the number above.

This section of the manual describes the preparation and submission of the New York State Medical Assistance (Title XIX) Program Order/Prior Approval Request Form (eMedNY 361502). It is imperative that these procedures are used when completing the forms. Request forms that do not conform to these requirements will not be processed by eMedNY.

Services that require prior approval are underlined in the Procedure Code Section of this Manual.

Receipt of prior approval does NOT guarantee payment. Payment is subject to client's eligibility and other guidelines.

Requests for prior approval should be submitted before the date of service or dispensing date. However, sometimes unforeseen circumstances arise that delay the submission of the prior approval request until after the service is provided. If this occurs, the prior approval request **must** be received by the Department within 90 days of the date of service, accompanied by an explanation of why the item was dispensed/service was provided before the prior approval request was approved.

Prior approvals must be obtained before services commence; except in cases of emergency. In that instance, no more than two (2) days [forty-eight (48) consecutive hours] will be approved retrospectively. In cases where services are provided on an emergency basis, the Medicaid Director or his/her designee must be notified on the next business day. In limited circumstances, prior approval may be granted retrospectively at the discretion of the Medicaid Director, or his/her designee, providing the prior approval request is received by the Medicaid Director or his/her designee within ninety

Nursing Services Prior Approval Guidelines

(90) days of the date of service was provided

The request must give a detailed explanation for the delay. Requests submitted without an explanation will be returned, without action, to the provider.

To reduce processing errors (and subsequent processing delays), please do not run-over writing or typing from one field (box) into another. The displayed Prior Approval Request Form is numbered in each field to correspond with the instructions for completing the request.

Paperwork Requirements for 'New Cases'

A "New Case" refers to a client who has never received a Prior Approval number from Medicaid for Private Duty Nursing Services OR there has been a lapse in service. If you are unsure what constitutes a new case, call the Prior Approval office listed in the 'Prior Approval Business Location' section of this website page.

1. Letter of Medical Necessity from ordering physician to include all skilled needs, level of care (LPN or RN) and number of hours being recommended.
2. Nursing Assessment – This is a head-to-toe, system-by-system physical assessment done by an RN. If the client is hospitalized, in a rehabilitation center or skilled nursing facility, an in-house RN can do the assessment. If the client is currently residing at home in the community, then a Certified Home Health Agency (CHHA) or Public Health Nurse (PHN) must do the assessment.
3. Back-up/training statement signed and dated by the primary caregiver, i.e., "In the event a nursing shift is not covered, I will be responsible for taking care of (Beneficiary name), and have been fully trained in all skilled tasks."
4. Documentation of training by facility staff (for hospitalized clients or those in a rehabilitation or Skilled Nursing Facility).
5. Psychosocial Assessment to include:
 - a. Who resides in the household with the client (include ages of any children);
 - b. Caregiver(s) work schedules on their company letterhead;
 - c. If applicable, client's school schedule and calendar;
 - d. If primary caretaker is attending college, send course schedule on college stationary.
6. Home assessment done by a Licensed Nursing Agency, PHN or CHHA. If the client is vent dependent a respiratory company must complete the assessment. This home assessment is to verify the safety of the client's home environment.
7. If there is Primary Insurance, send an Explanation of Benefits (EOB) from the insurance company
 - a. If the client has primary insurance and this is **NOT** disclosed on the Medicaid system, this may significantly delay the Prior Approval process.

Nursing Services Prior Approval Guidelines

8. All skilled tasks must be “specified.” For example, do not write suction “PRN,” instead, document actual frequency such as suctioned Q 4hrs. For tube feedings – list the actual time of day administered (i.e.: 8a, 12N, 4p, etc.) as well as the name of the product, the amount per feeding and the method (bolus, gravity or pump). Medications must include name of drug, route, dose and frequency.
9. For cases to be staffed by independently enrolled LPN’s: a “letter of oversight” signed by the ordering physician must be submitted. This letter should state, “I am aware that there are independently enrolled LPN’s staffing this case and I am willing to provide oversight to them.” This must accompany the initial prior approval request form (eMedNY361502) along with a list of all Independent providers servicing the case and their NPI numbers.
10. If PDN is for school, then submit a letter from the school district stating child cannot attend without 1:1 nursing and the district cannot provide it, or send a copy of the child’s I.E.P.

Upon receipt of a complete package, a medical determination will be given in writing. The provider who has accepted the case can then begin providing services and must submit a Prior Approval Form (eMedNY361502) **within thirty (30) days of the initial date of service**, to Computer Sciences Corporation, in order to receive the initial Prior Approval Number.

Please fax the above information to the appropriate Business Review Location reviewing the request (call for fax number).
