

Medicaid Fee- for- Service Providers
Dispense Brand Name Drug when Less Expensive than Generic Program

Effective February 27, 2020, the following changes will be made to the Dispense Brand Name Drug when Less Expensive than the Generic Program:

- Apriso and Novolog will be ADDED to the program.

In conformance with State Education Law which intends that patients receive the lower cost alternative, brand name drugs included in this program:

- Do not require 'Dispense as Written' (DAW) or 'Brand Medically Necessary' on the prescription.
Have a generic copayment.
Are paid at the Brand Name Drug reimbursement rate or usual and customary price, whichever is lower (SMAC/FUL are not applied).
Do not require a new prescription if the drug is removed from this program.

IMPORTANT BILLING INFORMATION

Pursuant to this program prescription claims submitted to the Medicaid program do not require the submission of Dispense as Written/Product Selection Code of '1'; Pharmacies should submit DAW code 9 (Substitution Allowed by Prescriber but Plan Requests Brand). Pharmacies will receive a NCPDP reject response of "22" which means missing/invalid DAW code if other DAW codes are submitted. The only exception to this, is DAW code 1 and "Brand Medically Necessary" on the prescription.

List of Brand Name Drugs included in this program* (updated 2/03/2020)
