MEDICAL SUPPLY CODES

4.0 GENERAL INFORMATION AND INSTRUCTIONS

1. Prior approval, dispensing validation, and prior authorization:
 - a. “_____” underlined code numbers indicate that prior approval is required, utilizing form eMedNY 361501.
 - b. When the description is preceded by a “#”, Medicaid Eligibility Verification System (MEVS) dispensing validation is required.
 - c. When the description is preceded by a “*”, voice interactive telephone prior authorization is required. The prescriber must write the prior authorization number on the fiscal order and the dispenser completes the authorization process by calling (866) 211-1736.
2. MMIS Modifiers:
 - a. The modifier ‘DD’ is no longer in use, effective for dates of service on and after April 1, 2002.
 - b. The modifier ‘BO’, Orally administered enteral nutrition, must be added to the five-digit alphanumeric code as indicated, effective April 1, 2003.
3. Unlisted/By Report Items:
 - a. Reimbursement for unlisted Supply Items is limited to the lower of:
 - The actual acquisition cost (by invoice to the provider) plus 50%; or
 - The usual and customary charge to the general public.
 - b. Effective January 1, 2005, reimbursement for Enteral Therapy indicated By Report is limited to the lower of:
 - The actual acquisition cost (by invoice to the provider) plus 30%; or
 - The usual and customary price charged to the general public.
4. Reimbursement for Enteral Therapy, Parenteral Therapy, listed Non-prescription Drugs and Medical/Surgical Supplies is limited to the lower of:
 - The price as indicated in the New York State Fee Schedule; or
 - The usual and customary price charged to the general public.
5. Acquisition cost means the line item cost from a manufacturer or wholesaler net of any rebates, discounts or other valuable considerations, mailing, shipping, handling, insurance costs or any sales tax.
6. For items listed in section 4.3 Medical/Surgical Supplies, the quantity listed is the maximum allowed per month. If the fiscal order exceeds this amount, the provider must obtain prior approval.
7. **“BY REPORT” (BR)**: When billing “By Report”, appropriate documentation (e.g.: itemized invoice) indicating total cost of the item, and any other factors which may be pertinent, must be submitted with the claim.
8. **FILLING ORDERS**: An original fiscal order for Medical-Surgical Supplies may not be filled more than 60 days after it has been initiated by the ordering practitioner unless prior approval is required.

ENTERAL NUTRITIONAL FORMULA

Benefit Coverage Criteria is limited to:

- Beneficiaries who are fed via nasogastric, gastrostomy or jejunostomy tube.
- Beneficiaries with inborn metabolic disorders.
- Children up to **21 years** of age, who require liquid oral nutritional therapy when there is a documented diagnostic condition where caloric and dietary nutrients from food cannot be absorbed or metabolized.
- Adults with a diagnosis of HIV infection, AIDS, or HIV-related illness, or other disease or condition, who are oral-fed, **and** who;
 - require supplemental nutrition, demonstrate documented compliance with an appropriate medical and nutritional plan of care, and have a body mass index (BMI) under 18.5 as defined by the Centers for Disease Control, up to 1,000 calories per day; **or**
 - require supplemental nutrition, demonstrate documented compliance with an appropriate medical and nutritional plan of care, have a body mass index (BMI) under 22 as defined by the Centers for Disease Control, and a documented, unintentional weight loss of 5 percent or more within the previous 6 month period, up to 1,000 calories per day; **or**
 - require total oral nutritional support, have a permanent structural limitation that prevents the chewing of food, and placement of a feeding tube is medically contraindicated.

Documentation Requirements

- The therapy must be an integral component of a documented medical treatment plan and ordered in writing by an authorized practitioner. It is the responsibility of the practitioner to maintain documentation in the beneficiary's record regarding the medical necessity for enteral nutritional formula.
- The physician or other appropriate health care practitioner has documented the beneficiary's nutritional depletion.
- Medical necessity for enteral nutritional formula must be substantiated by documented physical findings and/or laboratory data (e.g., changes in skin or bones, significant loss of lean body mass, abnormal serum/urine albumin, protein, iron or calcium levels, or physiological disorders resulting from surgery, etc.)
- Documentation for beneficiaries who qualify for enteral formula benefit must include an established diagnostic condition and the pathological process causing malnutrition and one or more of the following items:
 - (a) Clinical findings related to the malnutrition such as a recent involuntary weight loss or a child with no weight or height increase for six months.
 - (b) Laboratory evidence of low serum proteins (i.e., serum albumin less than 3 gms/dl; anemia or leukopenia less than 1200/cmm);
 - (c) Failure to increase body weight with usual solid or oral liquid food intake.

Additional Information:

- Non-standard infant formulas are reimbursable by Medicaid under the appropriate enteral therapy code.
- The calculation for pricing enteral formula is as follows: Number of calories per can divided by 100 equals the number of caloric units per can.

- The Enteral Web Portal and Interactive Voice Response (IVR) System are two parts of the enteral product prior authorization system. Payment for those items listed in the procedure code manual marked with an asterisk (*) is dependent upon prior authorization through the automated system. The ordering practitioner must access the portal at <https://medicaidentalportal.health.ny.gov/> or <https://www.emedny.org/> home screen or alternatively, use the telephonic IVR system (1-866-211-1736) for the prior authorization number. The fiscal order, including the authorization number, is sent to the dispensing provider. The dispensing provider uses the portal or IVR to verify the information and submit the correct billing code. Requests that do not meet the defined benefit in 18NYCRR 505.5 (g) may be submitted through the prior approval process for consideration.
- The New York State Medicaid Program does not cover enteral nutritional therapy as a convenient food substitute.
- Standard milk-based infant formulas are not reimbursable by Medicaid.

UNDERPADS/DIAPERS/LINERS

Coverage Criteria:

- Diapers/Liners and underpads are covered for the treatment of incontinence only when the medical need is documented by the ordering practitioner and maintained in the beneficiary's clinical file.

Non-Covered Indications:

- Diapers/Liners will not be covered for children under the age of three as they are needed as part of the developmental process.
- Incontinence liners are not menstrual pads. Personal hygiene products such as menstrual pads are not covered.

General Guidelines:

- The dispenser must maintain documentation of measurements (e.g., waist/hip size, weight) which supports reimbursement for the specific size of diaper/liner dispensed.
- Up to a total of 250 disposable diapers and/or liners are allowed per 30 days, providing for up to 8 changes per day. Claims for any combination of diapers and/or liners over 250 per 30 days will be denied.
- The quantity limits reflect amounts required to meet the medical need for a beneficiary's incontinence treatment plan.

CGM Coverage Guidelines:

CGM may be available for members who are diagnosed with diabetes and meet **all** the following criteria:

1. **Member with a diagnosis of gestational diabetes, or**
2. **Member with a diagnosis of type 1 or type 2 diabetes:**
 - under the care of an endocrinologist, or an enrolled Medicaid provider with experience in diabetes treatment, who orders the device.
 - compliant with regular visits to review CGM data with their provider.
 - on an insulin treatment plan that requires frequent adjustment of insulin dosing or an insulin pump.
 - Member or member caregiver can hear and view CGM alerts and respond appropriately.

Additional CGM Guidelines:

- Only providers who have had a recent visit with their patient (within the last six months) should order a CGM.
- Prescribers should be actively monitoring their patients to ensure adherence to treatment plans. Diabetes education is strongly encouraged.
- Providers must document CGM data in patients' charts. All collected data should be used in clinical decisions.
- Insulin pump replacement will be considered when medically necessary, outside of manufacturer's warranty, and not for recent technology upgrades. Repairs will be funded if outside of manufacturer's warranty and cost effective (< 50 percent of fee).

Medical Supply Codes Billable by a Pharmacy

- Ancillary devices (such as, but not limited to, phones, tablets, and personal computers) are not covered.
- Providers should verify manufacturer's age requirements for the CGM device ordered.

PHARMACISTS AS IMMUNIZERS

The administration of select vaccines by qualified pharmacists employed by, or under contract with, Medicaid enrolled pharmacies is reimbursable under NYS Medicaid. Administration of vaccines is conducted pursuant to NYS Education Law and regulations (8NYCRR63.9) which permits licensed pharmacists who obtain additional certification to administer influenza and pneumococcal vaccinations to adults 18 years of age and older.

Reimbursement is based on a patient specific or non-patient specific order. These orders must be kept on file at the pharmacy. The ordering prescriber's NPI is required on the claim for the claim to be paid.

Pharmacies must bill the administration and cost of the vaccine using the following **procedure codes**. NDCs are not to be used to bill the vaccine product. Reimbursement for the product is made at no more than the actual acquisition cost to the pharmacy. No dispensing fee or enrollee co-payment applies. Pharmacies must bill with a quantity of "1" and a day supply of "1".

See the vaccine codes on the Pharmacists as Immunizers Fact Sheet for current codes found here: https://www.health.ny.gov/health_care/medicaid/program/phar_immun_fact.htm
