

ATTENTION PRACTITIONER PROVIDERS:
ADDITIONAL BILLING INFORMATION FOR
VACCINE ADMINISTRATIONS

As a result of NCCI editing, claims may be denied Edit 00715 (***Procedure conflicts with prior service***) when an **office visit** (E&M and preventative medicine codes) and a **vaccine administration service** is billed on the same day of service.

NCCI will allow payment for both services when a separately identifiable office visit was performed that meets a higher complexity level of care than a service represented by CPT code 99211.

For payment to be made for both services, the office visit must be billed with Modifier - 25 (***Significant, separately identifiable evaluation and management service by the same physician on the same day of the procedure or other service***). Providers must maintain documentation in the medical record to support use of an appropriate modifier.
